

CORE FLOOD Battery Powered LED FloodLight 20K lumens

COre
LIGHTING

Designed, Manufactured and Supported in the UK

General Benefits of the CORE Battery Powered LED FloodLight

- Evening lighting from early Autumn through to late Spring lengthens the use of facilities all week and year-round
- Overcome planning requirements (for mains powered lighting)
- Electricity consumption 1/10th of traditional halogen area lighting
- Ultra high brightness: 4 units lights up an area 50m x 30m (1500 sqm) (15,000sqft)
- No trailing mains connection wires for a safer environment
- Many uses - Public safety, event lighting, training, path and task lighting

Pleasant neutral white colour temperature

Portable Battery Powered LED FloodLight 20K Lumen

Designed for instant, temporary floodlighting anywhere. Battery powered with no messy cables, extremely high brightness at 20,000 lumens and rugged outdoor rated design.

The CORE FLOOD is ideal for fast deployment to quickly light large scenes, areas, car parks, training grounds, arenas and requires no planning permission in most places. Also available with 100-240V input. The head sits on a tripod stand at 3.2m and the very portable lightweight battery unit hangs from the frame.

Features

- 2 hrs or 4hrs lifespan full brightness, lengthened by adjusting brightness up to 13hrs
- Electricity consumption 1/7 to 1/10th traditional halogen area lighting
- Ultra-high brightness: 4 units lights up an area 50m x 30m (1500sqm) (15,000sqft)
- Special lens ensuring light focused to 90deg beam on operational area. 20k lumens equivalent to 32k lumen light with with no lens

Portability & Simplicity

- Simple plug-in charger (10 hours to 95%, 14hrs to 100% green)
 - (faster chargers available)
- Push height up to 3.2m (10.5ft) on lightweight tripod system
 - *Other heights also available; 4.5m tripod and 6m adjustable pole*
- Simple push-on button with 3 intensity steps:
 - 4, 6 & 13hrs—52Ah Pack
 - 2, 3 & 6hrs—26Ah Pack

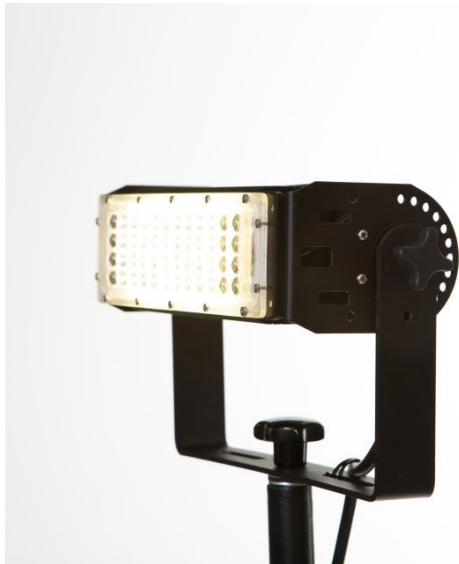

Multiple Uses from a single unit

- Instant lighting for area lighting, safety, task and equestrian
- Public access safety, trackway, path lighting
- Wide area task lighting, loading/unloading vehicles
- Utilities and facilities management

Portable Battery Powered LED FloodLight 20K Lumen

Light Head

- **White LED Head using highest quality Cree high-brightness LED chips, Neutral White 4000K CCT**
- **LED output 20,000 lumens providing an intense brightness at only 120W consumption. Equivalent to light of 32,000 lumens (190W) using no lens.**
- **3.2m very sturdy tripod (3m plus 0.2m light head)**
- **90° LED focused beam using specifically designed optical lens to concentrate light into the required area.**
- **Convection cooled – no fan**

Power Source

- **Charge from mains power source 110-240Vac 50/60Hz**
- **Charge time 10 hours to 95%, 14hrs to 100% (green indicator)**
- **Faster charging options available**

Two battery options:

1. **26Ah lithium ion for lower cost; 11Kg including tripod; 2 hrs @ 100% brightness, 6hrs on min setting**
 2. **Optional 52Ah Lithium Ion for max life; 12Kg incl tripod; 4 hrs @ 100% brightness, 13hrs on min setting**
- **Operating temperature -20 to +50 deg C. Charging temperature 0 to +50degC**

Mechanical & Accessories

- **Rugged powder coat painted aluminium head and polycarbonate battery housing in padded bag**
- **Standard 3.2m powder coat steel tripod. Optional 4.5m zinc plate steel tripod or 6m adjustable pole (for fixing to fence)**
- **Options with PIR sensor and/or solar charging (consult CORE office for operational details)**
- **Multi-head available**
- **IP65 Weatherproof for rugged outdoor use**

core
LIGHTING

CORE COMPACT

**Wireless Battery Powered Compact
Uplighter Lithium Ion
Bluetooth enabled with W-DMX Option**

Simple and low-cost uplighter with lithium battery power, wireless setup, cable-free operation and capability to work outdoors with IP65 rating. The units are lightweight, small and very discrete with their unique CORE trademark styling.

For tree lighting, enhancing function rooms, adding a splash of light to buildings up to 3 storeys, exterior and other artistic lighting from a small but powerful unit. Colour or warm shades of white.

The units feature two RGBW quad colour LED arrays, running for 8 hours at full power. With optional Wireless DMX for unit control from a lighting console and built in Bluetooth for later upgrade to operate from new CORE apps as they are launched.

Benefits

- High intensity 15deg RGBW LED beam for lighting up to 3 storeys
- Outdoor rated IP65 for outdoor use
- Small and simple to use for non-technical users; display on top for ease of setup
- Tilt up to 15 degrees using adjustment foot
- Lightweight 1.3Kg and easy to hang with M10 screw socket in the base
- Aesthetically designed cylinder 'CORE' styling for beautiful venues
- UK manufactured with quality reliability and brand reputation

Light Head

- 1200lumen output from dual quad chip RGBW arrays with 2kHz TV flicker free
- Easily tilt unit to 15deg using simple adjustment foot screw
- 15deg beam angle with optional diffuser holder available to increase beam width 20 to 100 degrees

Power

- Powerful Lithium Ion internal battery lasts 6hrs on full power up to 24 hours with easily adjustable brightness
- Charges individually, in 4-way bag or 6-way charging case
- May be individually powered from 24V PSU into base (available separately)
- 36W dual LED arrays/25W power consumption during charging

Control

- In-built 63 Lee filter plus custom colours; 6 colour chase sequences with fade control
- Integral Bluetooth (BLE) for app control from mobile phone/tablet as released
- Optional Wireless DMX Slave for lighting desk control. Master unit available to set up local network
- W-DMX and CRMX protocols for compatibility with full CORE range and other brands
- Simple firmware upgrade for future CORE software releases

Mechanical

- Hanging point in base - M10 for use as downlighter/PAR Can replacement
- Weight only 1.3Kg
- Dims 140mm (h) x 133mm (dia)
- Charging case options:
 - 4-way portable charging bag: 7.8Kg; 380(l) x 320(w) x 270(h)
 - 6-way wheeled charging case ABS: 19.8Kg; 600 (l) x 470 (w) x 280 (h)

Accessories

- Wireless DMX (W-DMX/CRMX) Master/Slave
- Lens Mount & Diffusion Lenses
- Light dome to create lighting effects
- Polished stainless steel shroud
- Customised shroud in your choice of colour
- ColourPoint Mini/COMPACT Bag

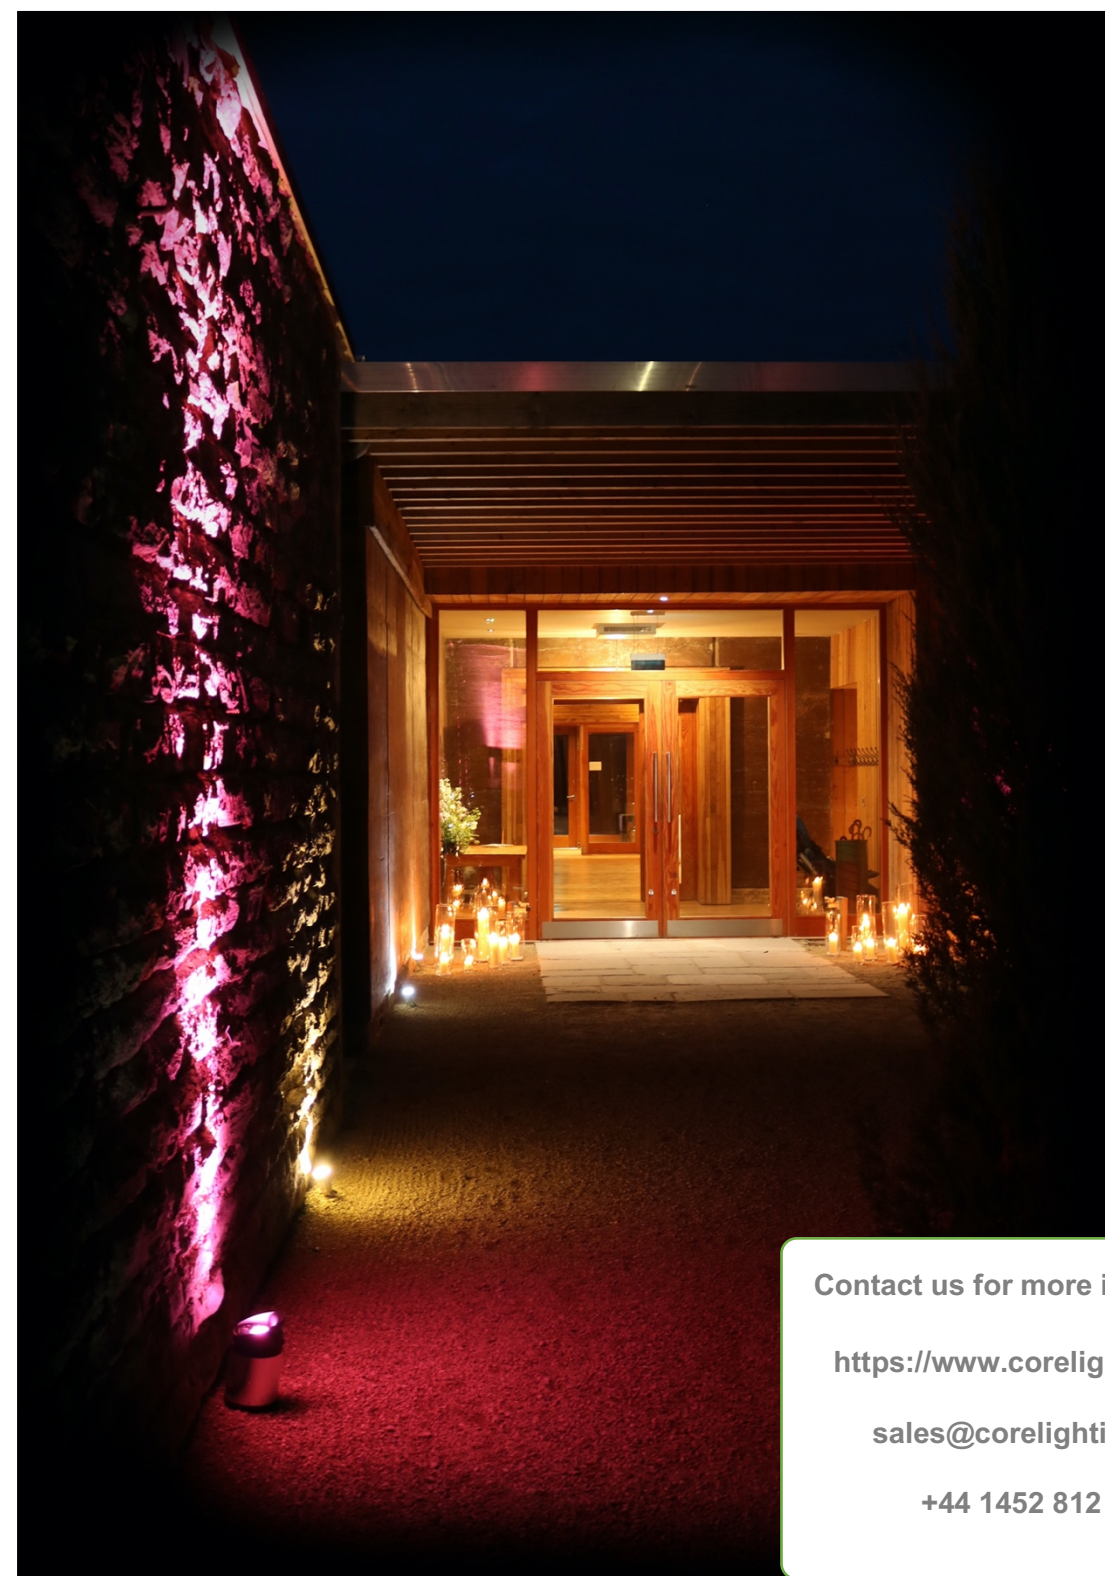

*CORE COMPACT
(smallest unit)*

Rugged charging case with 6 units

*ColourPoint Mini / COMPACT
Charging Bag carries 4 units*

8 HOUR MIN

APP CONTROL

Wireless Li-Ion Battery Mk2

Uplight RGBW

Benefits

- Very fast setup and get-out for events
- Outdoor rated IP65 for bad weather
- Will light 4-5 storeys using 4 x high brightness LED quad chips including white
- No mains or data connection wires for a safer environment
- Even colour mixing & easy white pastel shades using 4-colour Cree LEDs (RGB+W)
- Recharge under 5 hours & very lightweight 4.0Kg using Li-Ion Battery
- Wireless control from W-DMX enabled lighting desk or ColourPoint Master unit
- 6-way charging flight case - simply place units into ports to charge
- 8hrs on in-built colours or cycles up to over 20hrs
- Attractive 'CORE Family' cylinder shape with removable stainless shroud
- Designed and manufactured in the UK

Typical Applications

- Larger Hotel & venue conference rooms
- Venue lobbies & exterior architectural lighting
- Production/AV & lighting hire companies
- Marquee tent & structure uplighting/wall-washing

- Weddings, parties & private functions
- Enhancing art & exhibits
- Exhibition stand lighting –eliminate power costs!
- Home lighting enhancement – indoor outdoor

Portability & Simplicity

Wireless DMX selectable Master or Slave

Mk2 features internal programs, cable DMX output & flicker-free PWM mode for TV

Instantly set up a colour theme. Simply leave in case to charge(4hrs), remove from case when finished then switch on in stand-alone mode or connected wirelessly with Master/Slave to other CORE products to control many of the together. No lighting desk needed. Share with other units in Master/slave mode to link units together.

Withstands the worst of weather outdoors with CORE's unique case design

A ColourPoint is able to light up five to six storeys

Accessories available

- Hanging bracket to hang ColourPoint from truss, marquee tent frames etc
- DMX Input/Output Cable
- Diffusion Lenses
- Lens Mount
- The standard mirror stainless steel shroud can be replaced with special order shrouds in your choice of colour
- External plug-in charger
- Diffuser holder on top of the lens. Slide in varying diffuser angles to widen the beam. 30deg, 60deg or 60deg elliptical lenses available
- External power supply provides permanent power to ColourPoint for long term use without battery
- Multi-coloured shrouds are available for this product
- Bluetooth to Wireless DMX Bridge to control multiple units from phone APP

Charging Flight Case charges six ColourPoints

Can be installed as mains-powered permanent fixture with special order. Wireless DMX control

LIGHTING

CORE Battery Exhibition Lighting

- Up to 4 x 10Watt Stemspots/ClampSpots per battery pack
- For commercial exhibition stands, market stalls, art exhibitions, food stalls, desk lighting, video calling
- Up to 40 Watts of warm white light
- Professional grade LED electronics and battery packs
- Over 14 hours between charges - 4 stems on large battery

Up to 4 x 10W Stems
Li-Ion Technology
Over 14 hours charge

Made in UK

Benefits

- Instant lighting for exhibits away from power
- Rechargeable battery - installation anywhere
- Designed for exhibition stands; art exhibits food buffets & temporary desk lighting
- Attractive but very bright light
- Large battery capacity covers most events
- Battery size & pricing for different budgets
- ClampSpot or StemSpot options available

ClampSpot

Product Quality

- UK manufactured EnergyPoint battery packs with CORE's quality & reliability
- CORE heritage in premium event lighting
- Lamps made to CORE's exacting specification with assembly in UK
- Spare parts &/or servicing available from our UK factory

EnergyPoint Size & Runtimes

Premium quality lithium ion battery packs

16Ah pack:

- 1 stem – 17h
- 2 stem – 8.5h

26Ah pack:

- 1 stem – 28h
- 2 stem – 14h
- 3 stem – 9.5h

52Ah pack:

- 1 stem – 56h
- 2 stem – 28h
- 3 stem – 19h
- 4 stem – 14h

StemSpot

Installation

- Easy Setup:
 - simple screw clamp to attach StemSpot
 - large bulldog clip to attach ClampSpot
- 4 x EnergyPoint sockets to connect lamps
- EnergyPoint with handle for easy carrying to recharge point (maybe off-site)
- Charger supplied with each EnergyPoint
 - Charges in 10hrs to >95%

Mechanical & Electrical

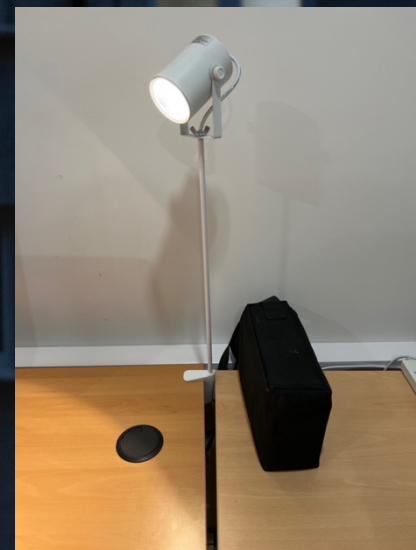

- Stem length 600mm; Cable length 3m
- Head diameter 70mm – length 110mm
- Widest clamp mount (both types)- 55mm
- Lightweight lithium battery 2 to 3Kg
- 3000K warm white light output
- Very bright 10Watts per StemSpot
 - (8Watts for ClampSpot)
- Dust & water rating IP32

4 x StemSpot with 52Ah EnergyPoint lithium battery (carry bag not shown)

3 x 3m pottery exhibition lighting (outdoor, covered)
